

## SINGLE HEAD HANDHELD SCALING HAMMERS - SF1

### DESCRIPTION

Trelawny's SF range of scaling hammers are highly effective for quick removal of heavy scale and coatings.

The SF1/VLSF1 single head tools are perfect for smaller and awkward to reach areas, being lightweight and easy to handle it's perfect for reaching behind structures and up against bulkheads.

### FEATURES

- Option of replaceable carbide tipped scaling heads or economical hardened steel single piece pistons
- Beryllium copper **spark resistant** heads for use in potentially explosive environments
- Ergonomic handle for ease of use - also available with a short handle and/or inline for tight areas
- Simple and robust design for low and easy maintenance

### APPLICATIONS

- Quick removal of heavy coatings and rust
- Preparation before blasting
- Cleaning pipes
